

Changes to Business Rules Used to Generate October 1 Enrollment

Starting with the 2008-2009 school year, new business rules are being used to calculate the October enrollment numbers. The table below compares the new rules to the ones for previous years. The most significant change is, due to federal requirements, October enrollment counts are now unduplicated.

School Year 2008-09 and Forward	School Year 2007-08 and Prior Years
1. Post-Integrity (Must pass ADM related business rules on any of the reporting periods in order to be accounted)	No integrity check
2. Count student only once.	Students counted in every entity they were enrolled in as of October 1.
